

**A Complete Phyto-Mineral Bone Therapy** 

## Contributes To The Maintenance Of Strong Bone Health

Shallaki (Boswellia serrata)

Reduces inflammation and prevents further breakdown of collagen (Indian J Pharm Sci. 2011;73(3):255-61.) Asthishrinkhala (Cissus quadrangularis)

Fastens the reparative system by augmenting IGF system in osteoblast (Ayu. 2015;36(2):169-173.)

Vata jata (Ficus bengalensis)

Helps in callus maturation and remodelling, leading to the formation of stronger bone

(J Ethnopharmacol. 2002;79(2):249-251.)

Natural Boron - Sudh Suhaga

Shallaki (Boswellia serråta)

Supplements natural Ca++ and PO

**Essential Fatty Acids - Kalonji and Flaxseeds** 

OMEGA-3 and 6

Wheat germ oil (Triticum aestivum), Flaxseed (Linum usitatissimum)

Vitamin C Asthishrinkhala (*Cissus quadranqularis*)

**Natural Vitamin D** Enhances Calcium absorption, prevents and treats Osteoporosis Pumpkin seeds (Benincasa hispida)

Natural Vitamin K - Alfalfa (Medicago sativa)

Alkaline phosphatase and Ca release Arjuna (*Terminalia arjuna*)

**Promotes Calcification** Of Bones

Increases **Osteoblastic** Activity

A rare combination of hadjod (Cissus quadrangularis), alfalfa (Medicago sativa), Calcium, Vitamin K and D, Minerals and Botanical extracts

## **Osteoblastic Activity**

Arjuna extract helps in cell differentiation and may be used as a healing factor in fractured bones

(Bull Mater Sci. 2014;37(6):1331-1338.)

## Boniheal

**A Complete Phyto-mineral Bone Therapy** 

Contributes To The Maintenance Of Strong Bone Health **Through Right Quantity And Proportion Of Bone Forming Components** 

- A unique combination of natural Calcium, Phosphorus, Vitamins C, D, K and Pro-bone Minerals
- Facilitates faster fracture healing
- Optimizes bone development
- Improves BMD (Bone Mineral Density)
- Meet higher demands of Calcium for improving dietary Calcium absorption
- Sugar-free formula

Restoration of bones

Limit the possible deficiency of calcium and other pro-bone minerals and ensure faster recovery and growth

## **DOSAGE**

**Puppies and Small Dogs:** 2.5-5 ml

Adults and Large Dogs: 5-10 ml

**Kittens:** 2.5 ml

Cats:

5 ml

Administer twice daily and shake well before use or as directed by the veterinarian.

Pack of 200 ml

**INDICATIONS** 

Delayed Bone Growth

Lameness, Rickets

Bone Injuries and Fractures
